

rasterprint™ portable graphic system

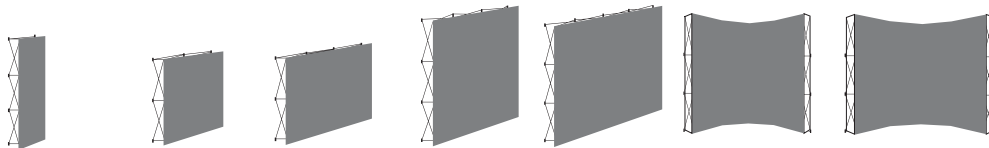

a big impression in a small package.

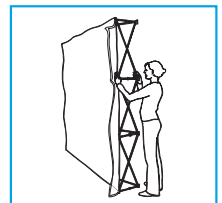

The Rasterprint™ Portable Graphic System is all you could want in a portable system - big bold graphics, fast setup, compact shipping, durability, easy graphic change-out and low cost. Unlike other systems, the graphic is included and integral to the Rasterprint™ PGS. The graphic stays attached to the frame during shipping so it requires no mounting or aligning during setup. Rasterprint™ PGS is available in tower, table-top and backwall sizes. All incorporate our vibrant machine washable Rasterprint™ graphics. The graphic is attached to the frame with Velcro® so it is easily replaceable in the field and there are no clips or pins to use. With Rasterprint™ PGS you get a full-coverage graphic. Call today and see how the Rasterprint™ PGS can get you to the show and setup while the competition is still unpacking.
